Working For The DNR

The DNR employs a large, diverse workforce throughout our state. We seek employees with a strong customer service philosophy and an attitude of helpfulness.

Since 1879, conservation wardens have been proudly protecting the people and natural resources of Wisconsin. Our conservation wardens are certified law enforcement officers who patrol statewide day and night, investigate natural resource-related violations, and ensure the safety of everyone who enjoys the outdoors. Conservation wardens use education, enforcement and community involvement to accomplish their duties and promote the conservation ethic. The conservation warden career is both unique and rewarding, and requires candidates with a passion for helping others, communication skills and an appreciation for the outdoors.
