

eCMAR SECTION INSTRUCTIONS:

Effluent Quality and Plant Performance (BOD/CBOD)

1. Effluent ((C)BOD Results

1.1 Verify the following monthly average effluent values, exceedances, and points for BOD or CBOD. *Check the effluent monthly average BOD or CBOD concentrations to ensure they are correct. If the numbers disagree with your reported eDMR values, contact your DNR District Wastewater Engineer or Specialist by clicking the 'REPORT ISSUE' button or by phone.*

1.2 If any violations occurred, what action was taken to regain compliance?

If any permit limit exceedances are shown in 1.1, type an explanation in the box of action(s) taken to regain compliance.

2. Flow Meter Calibration

2.1 Was the effluent flow meter calibrated in the last year?

Click the 'YES' button and enter the date (MM/DD/YYYY) of the last calibration if calibrated in the last year. If the influent flow meter was not calibrated in the last year, click the 'NO' button and type an explanation in the 'EXPLAIN' box.

3. Treatment Problems

3.1 What problems, if any, were experienced over the last year that threatened treatment?

In the box provided, type in any problems experienced that threatened treatment.

4. Other Monitoring and Limits

4.1 At any time in the past year, was there an exceedance of a permit limit for any other pollutants such as chlorides, pH, residual chlorine, fecal coliform, or metals?

Select the appropriate 'YES' or 'NO' button; if you selected 'YES', type a description in the box.

4.2 At any time in the past year was there a failure of an effluent acute or chronic whole effluent toxicity (WET) test?

Select the appropriate 'YES' or 'NO' button; if you selected 'YES', type a description in the box.

4.3 If the biomonitoring (WET) test did not pass, were steps taken to identify and/or reduce sources(s) of toxicity?

Select the appropriate 'YES', 'NO', or 'N/A' (if no tests were performed) button; if you selected 'YES', type a description in the box.
